

# Flood Support

- The Parish Council has always taken an active part in flood risk.
- On 16-02-20 over 70 Properties were affected by flooding from Barton Brook and Full Brook
- The council worked hard to pull all the agencies together on behalf of all residents affected
- Sadly the Pandemic stopped us in our tracks
- BUT we are still working with the various agencies on solutions and will continue to do so
- That includes trying to ensure gullies are maintained, looking at flood management solutions with the EA, ensuring Bellways maintain the land around the Full Brook (ensuring a proper maintenance plan is created) and brook working parties.

# Brook Working Party
