

- 1 The cycle route begins in the car park of Holland Sports Club, Potter's Way, off Efflinch Lane DE13 8ET. From the car park, cycle back towards the road, but turn left onto the path which runs between the football pitch and the fish pond.
- 2 At the end of the path turn left again and pass the school. Watch out for the sleeping policeman.
- 3 As you pass through the gate onto the footpath, you may be lucky to see a game of cricket, rugby or football.
- 4 Just before you reach the bridge, turn right through a gate and follow the path all around the lake to the marina buildings. Some of this will be "cross country" over the field. If you need a little break at this point, you could explore the marina shops and perhaps have an ice cream treat from the Farm Shop!
- 5 From the Marina shops, continue cycling past the water feature to the second lake just by the small car park.
- 6 Follow the path anti-clockwise right round this smaller lake.
- 7 Cross the bridge on your right to join the path around the first lake again, continuing in an anti-clockwise direction.
- 8 Soon you will come back to the arched bridge. Turn right here and retrace your route back to the Holland Sports Club.

The lakes are home to many different types of ducks, swans and geese. How many can you spot?

Circular Cycle Routes Around Barton Under Needwood

CYCLE ROUTE WITH CHILDREN

Distance: 1 mile

Approximate Time: 45mins

This cycle route is designed for children and avoids public roads. Please note that some of the route is off the path and around the lake.
